THE PROBLEM

Mexico has **65M+** adults without formal credit history (60% of the adult population). Banks reject **7 of 10** loan applications. **50%** of the economy operates informally. Existing fintechs bolt AI onto legacy infrastructure — unable to profitably serve thin-file customers.

Credit score for 50% of economy

OUR SOLUTION — AI-NATIVE ARCHITECTURE

Industry Average

- AI bolted onto legacy systems
- 3-7 day approval time
- \$15-25 cost per loan
- 15-20% thin-file approval rate
- 3-5% fraud loss rate

Proyecto X

- AI-native from day one
- <5 second credit decisions
- <\$5 cost per loan
- 40%+ thin-file approval rate
- <1.5% fraud loss rate
